

MAX CERNY

SENIOR AZURE DEVOPS CONSULTANT & CLOUD ARCHITECT

Brno, Czechia / Vienna, Austria | info@MaxInTheCloud.com | www.MaxInTheCloud.com |
+420 773 751 656

SUMMARY

Senior Azure & DevOps engineer with **20+ years in UNIX & automation** and **10+ years designing enterprise Azure platforms**. Specialized in **Landing Zones, Terraform/Bicep frameworks, CI/CD automation, governance, scalability, and security**.

I build **large-scale, compliant, cloud-native architectures** for global enterprises in pharma, energy, finance, and technology.

TECH STACK

Azure • Terraform • Bicep • ARM • YAML • GitHub Actions • Azure DevOps • AKS • Docker • Helm • GitOps • PowerShell • Bash • Python • Azure Monitor • Log Analytics • ELK • Hadoop • Spark • Security & Compliance Automation

CERTIFICATIONS

Azure DevOps Engineer Expert • Azure Security Engineer Associate • Azure Administrator Associate • AZ-303 • AZ-400

EXPERIENCE & KEY ACHIEVEMENTS

2023–2025 | Novo Nordisk | Senior Azure DevOps Consultant

- Engineered & maintained enterprise-grade CI/CD pipelines in Azure DevOps for the **StudyBuilder** platform (<https://www.openstudybuilder.com/>).
- Eliminated large-scale **race conditions** and optimized ingestion of high-volume datasets.
- Implemented Terraform/Bicep IaC patterns and governance standards across the platform.
- Delivered secure, compliant, and automated deployments for multiple global teams.

2023 | Recognize | Azure/AWS DevOps Consultant

- Built hybrid automation workflows across Azure & AWS.
- Delivered GitHub Actions CI/CD pipelines supporting high-velocity integration platform.
- Implemented PowerShell modules, testing, and deployment automation.

2022-2023 | Norsk Hydro | Azure DevOps consultant

- Improved Azure Landing Zone architecture and governance.
- Refactored **30+ Terraform modules** and **100+ CI/CD pipelines** to enterprise standards.
- Increased infrastructure reliability, consistency, and auditability.

2022 | GreenFlux | DevOps Engineer

- Reduced deployment pipeline runtime by **30%**.
- Built ELK/Kibana monitoring stack; strengthened platform observability.
- Designed Azure VPN connectivity for secure cloud/on-prem communication.

2021 | Anglo American | Azure DevOps Consultant

- Delivered cloud governance remediation across the enterprise.
- Implemented Azure Policies, compliance automation, and DevOps adoption frameworks.
- Improved security posture and standardized deployment workflows.

2020 | Cloudeon | Senior Azure Consultant

- Designed and built **Azure platform from scratch** for a major energy enterprise.
- Created Terraform module library used across the entire environment.
- Implemented governance-as-code and automated cloud compliance controls.

Pre-2018 Experience | Cloudeon, Linde Gas, Tieto, IBM, BNP Paribas

- Infrastructure automation, platform support.
- UNIX engineering, WebSphere environments, automation, production operations.
- Extensive scripting, troubleshooting, and enterprise system design.
